PROFESSIONAL SUMMARY

Computer Science graduate with hands-on project experience in React.js, JavaScript, PHP, Laravel, and MySQL. Experienced in building responsive interfaces, integrating REST APIs, implementing authentication workflows, and organizing reusable application components. Seeking a junior Full-Stack Web Developer position or internship to contribute to software products and grow within a collaborative development team.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, React.js, Vite, Tailwind CSS, React Router
Backend: PHP, Laravel, REST APIs, Laravel Sanctum, Eloquent ORM, Role-Based Access Control
Database: MySQL, SQL
State and API Tools: Zustand, React Hooks, Context API, Axios, Postman
Development Tools: Git, GitHub, VS Code, XAMPP, Vercel, Netlify

PROJECT EXPERIENCE

KisanRai – Farmer Opinion Platform **Full-Stack Developer**
React, Laravel 12, PHP, MySQL, Tailwind CSS

- Developing an agricultural review platform for farmers to evaluate pesticides, fertilizers, and seeds before purchasing.
- Built role-based workflows for Farmers, Companies, and Admins, including reviews, ratings, comments, and company replies.
- Developed 35+ REST API endpoints using Laravel and MySQL; tested APIs with Postman.
- Implemented Sanctum authentication, email OTP verification, rate limiting, and role-based route protection.
- Built a responsive React frontend using Vite, React Router, Axios, and Tailwind CSS; added reporting and moderation workflows.

BoxVerse – Custom Box-Builder E-commerce **Frontend Developer**
React, JavaScript, Tailwind CSS, Zustand

- Developed frontend features for an interactive e-commerce box builder, focusing on responsive layouts and reusable components.
- Organized builder, product, layout, hooks, stores, services, and routing features into a structured React application.
- Implemented Zustand state management and contributed to dark-mode styling, route guards, and Vercel deployment fixes.

Abdul Salam OS – Developer Portfolio **Developer**
React, Vite, Tailwind CSS, JavaScript, Vercel

- Designed a desktop-inspired portfolio to present projects, technical skills, resume, and contact information to recruiters.
- Built reusable UI components, interactive project windows, and terminal-style interactions alongside conventional navigation.
- Deployed the portfolio on Vercel and refined its interface through iterative development.

Jamia Umar – Management Portal **Project Developer**
PHP, Laravel, MySQL, Blade

- Worked on a management portal for institutional records, including attendance, admissions, and finance-related workflows.
- Developed database-backed features and role-aware access for different administrative responsibilities.
